## Rawdon Municipal Bulletin

JUNE 2013

### Word from the Mayor

**THE TOWN HALL OFFICES WILL BE CLOSED ON MONDAY, JUNE 24<sup>TH</sup> FOR THE FÊTE NATIONALE AND ON MONDAY, JULY 1<sup>ST</sup> FOR CANADA DAY.**

We are entering the long awaited summer season. Our Recreation and Culture Department has planned events and activities which, I am convinced, will satisfy everyone. Our three tourist sites are opening up and waiting for you. Let's enjoy these magnificent sites!

Summer is the season of major works. Started in May, the aqueduct and storm sewer works in the Albert Street sector (from Tinkler Park to the 7<sup>th</sup> Avenue), Saint-Jean-Baptiste, 7<sup>th</sup> et 9<sup>th</sup> Avenue are going well. We thank residents and users of our streets for their understanding. Other major works will also be performed during the summer and fall (see the Info-Works section).

**AQUEDUCT, SEWER, PAVING** – In order to improve our municipal networks, taxpayers from 14<sup>th</sup>, 15<sup>th</sup> and 16<sup>th</sup> Avenues (between Queen and Morgan Road), Robinson Street and Chemin du Golf have accepted the Municipality's proposition. The works will start as soon as the required authorizations have been delivered.

**FIRE STATION** - Our honourable MNA and Minister of Finance and the Economy, Mr. Nicolas Marceau

visited us and made a funding announcement of 50% from the Quebec Government for the construction of our new fire station. Mr. Marceau stressed that the financial help made Rawdon one of the 21 municipalities to benefit, in 2013, from the new 5.1 subcomponent of the Quebec-Municipalities infrastructure program (PIQM), which is dedicated solely to municipal or community oriented infrastructure projects. Many other funding requests for projects to be implemented in Rawdon in 2014 are under revision in Quebec. We are confident that these projects will gain favourable reception.

Rawdon is a beautiful municipality. I am very proud to see that the citizens are taking exceptional care of their property. I am convinced that good will and the emulation of good neighbourly relations are great incentives for the cleaning of properties by negligent owners. Let's all help each other.

I wish you a wonderful summer and fully enjoy your summer holidays.

**The Mayor, Jacques Beauregard**

## Blue Patrol

### Water, a valuable resource

During the 2103 summer season, Mrs Camille Paradis Gaudet (leader of the Blue Patrol) will go around the municipality in order to make citizens aware and inform them about responsible use of potable water. The patrol will also be responsible for the oversight of By-law 100-02-2 on the use of potable water. The issuing of warnings as well as infringement notices, in the event of a repeat offence, will be delivered (refer to the Municipality's Website, Municipal Services tab / Town Clerk / Regulations, as well as the Environment tab).

The Blue Patrol will also produce a database on the users of automatic drip or aspersion watering systems connected to the aqueduct network as well as wells in service for watering.

The production of potable water in sufficient quantity is a challenge in order to avoid a shortage of drinking water or a situation endangering public health and sanitation. The municipality can issue a notice limiting the use of aqueduct water for watering purposes during a given period of time.

The Municipality has registered in the PEEP program (Programme d'économie d'eau potable du réseau environnement [www.reseau-environnement.com](http://www.reseau-environnement.com)). Many events are planned until August 9, in order to inform citizens about different hints and tips on how to conserve water in their daily lives.

# Planting on Municipal Shores

Two projects to renaturalize river banks have been completed by the Rawdon Municipality in May. The first project was completed at Lake Pontbriand, on a portion of the bank located on Promenade-du-Lac Street.

Renaturalization of the shoreline on Promenade-du-Lac Street.

These shores will serve as models for shoreline residents who must re-establish the natural character of artificial shores.

The second project was completed at Rawdon Lake, on the shore located next to the dam (on 3<sup>rd</sup> Avenue).

Renaturalization of the shoreline on 3<sup>rd</sup> Avenue.

The naturalization project of the 3<sup>rd</sup> Avenue shore was completed with the help of the *Fonds de protection de l'environnement matawinien*, of the MRC de Matawinie, at a total cost of \$4,864, including salaries and expenses.

## A Green Patrol for the protection of shorelines...

Considering that is required in 2013 to proceed to the re-naturalization of shores as required by the Interim Control By-law of the MRC de Matawinie, the Municipality has set up a Green Team for the 2013 summer season. This team will be composed of Mrs. Marie-Pierre Thibeault, the person responsible for the environment and Mr. Anthoni Barbe, a student in the environment field.

### Mr Barbe's mandate will be to:

- \* make citizens aware of their natural shoreline;
- \* proceed to the inspection of shoreline properties and to characterize the riparian strips;

- \* meet owners and guide petitioners toward appropriate resources related to the re-naturalization of shores.

Inspections will be prioritized on certain lakes in 2013. It is therefore possible that you receive the visit of Mr. Barbe on your shoreline property. During this visit, reference documents will be given to you. We remind you that the creation of the Green Team is part of an array of environmental actions aiming at the re-naturalization of shores, lakes and watercourses.

Thanks for actively participating in the protection of lakes and watercourses which constitute a great part of our natural identity.

## The Department of the Territorial Planning and Development wishes to remind you that:

- \* Temporary car shelters and their structures must be dismantled since May 15<sup>th</sup>. We remind you that temporary car shelters are authorized from the 15<sup>th</sup> of October of one year to the 15<sup>th</sup> of May of the following year only;
- \* Mechanical work on a vehicle owned by the occupier of a property can only be done inside the latter's garage;
- \* Camping is authorized only on accredited campgrounds;
- \* The installation of exterior siding must be completed within the 24 months following the issuance of the construction or renovation permit of a building;
- \* All surfaces of your property, with the exception of the areas reserved for circulating and parking, must be covered with grass or vegetation.
- \* When landscaping must be performed after a construction, it has to be completed no later than 18 months following the issuance of the construction permit;
- \* The installation of the following signs is forbidden on the territory: temporary signs, mobile signs, sandwich-type signs, stroboscope or animation-type signs, banners, neon signs and signs installed on windows;

- \* Inside the urban perimeter, only the cut of trees with a diameter inferior to 10 cm measured from 30 cm above the ground and the trimming of trees (up to 50% of the branches) are authorized without a permit;

Except in the cases mentioned above, the cutting of trees inside the urban perimeter requires a permit.

Any cutting of trees inside a riverbank protection zone requires a permit throughout the municipality;

- \* In order to improve the health of citizens who are allergic to pollen, it is asked that you eliminate all ragweed from your property as soon as it is visible.

Please note that anyone who contravenes a municipal by-law is subject to a fine.

For information related to the authorizations necessary for the renovation, the construction and re-naturalization of your shore in 2013, you can consult your Citizen's Guide, the municipality Website ([www.rawdon.ca](http://www.rawdon.ca)) or contact us at 450 834-2596, extension 7102.

Also, do not forget to make your change of address at the Municipality, the school board, Hydro-Québec, your phone and Internet provider, etc.

## Is your dog jumping over... fences?

### Causes:

- \* Reproductive hormone incite male or female dogs to run away.
- \* A newly adopted or having recently moved pet will want to return home.
- \* The hunting instinct can lead it to run after squirrels, cats, etc.

\* Boredom, anxiety or mistreatment can also be causes of runaway.

### Solutions:

- \* Having your dog spayed or neutered will greatly reduce its desire to go roaming around.
- \* Sufficient and balanced food will also reassure your dog.

\* Taking some time to play with your dog or going for a walk will satisfy its needs for exercise.

\* Do not tie up your dog (if your property is fenced) and leave it alone in the yard. Dogs try to escape when they are tied up.

\* An invisible, virtual fence which activates when the animal leaves the grounds is a great solution.
