THE GREEN SHIFT CONTINUES IN OUR MUNICIPALITY

Acquisition of an electric terminal

An application for financial assistance has been filed with the *Fonds de protection de l'environnement matawinien* in order to acquire electrical terminals. Electric vehicles significantly reduce greenhouse gas emissions and allow us to combat climate change. Moreover, considering that the motor vehicle sales market has evolved rapidly and has significantly increased since 2009, this electrical terminal installation project will be paired with several educational activities and electric vehicle test drives for citizens. Stay tuned!

In the same spirit, other green projects are planned. We will keep you posted...

REMINDER DOG LICENSE

We remind you that any dog inside the limits of the Municipality must be registered. The license is valid for one year, from January 1st to December 31st of every year. You can obtain your license at Town Hall.

USE OF THE BLUE AND BROWN BINS

To facilitate the participation in the collection of recyclable and compostable materials, a blue bin and a brown bin are made available to citizens of each residence and some businesses. These bins are the property of the Compo Recycle Company and their use is reserved for the sole purpose of collecting recyclable and compostable materials. Should you move, these bins must stay at the property where they were delivered.

Any painted bin used to collect landfill material is considered noncompliant and its contents cannot be collected. Furthermore, this modification is considered as damage to the property of others for which you could be held responsible.

Given the increasing number of bin thefts, we would like to remind you that, following the collection, it is recommended to bring the bins to the back of your property as soon as possible.

IN CASE OF EMERGENCY – ARE YOU READY?

In many cases, we are vulnerable when an emergency occurs. The Municipality informs you about measures that may help you in such situations. This information comes from the Ministère de la Sécurité publique website.

A brochure published in 2012 contains information and tips to ensure public safety in the following emergency situations: flood, house fire, power outage during winter, earthquake or strong winds. It also addresses preparation of an emergency plan and the importance of having essential items to subsist during the first three days of an emergency situation or to take with you in case of evacuation. You will also find information on what to do if you have to evacuate your household or stay inside during a disaster. Lastly, the brochure informs you on insurance after a disaster.

You can visit the ministère de la Sécurité publique website at

<http://www.securitepublique.gouv.qc.ca/securite-civile/se-preparer-aux-sinistres.html> or get the brochure at the Town Hall reception desk.

BEWARE OF FRAUD

Anyone can fall prey to Internet or telephone fraudsters. Be careful, because there is currently a case of fraud on the Internet concerning the sale of a computer anti-virus software.

Here is how the fraudsters proceed:

When you're browsing the Internet, a window opens (pop-up) and a low price anti-virus is offered. You're asked to provide your personal information in order to install the anti-virus software remotely. Once you have entered your information on the Internet, some of them will even call you at home and introduce themselves as part of a company and will explain how they will proceed.

The fraud occurs at the moment of credit card payment. People are trusting and give their credit card number to a complete stranger, without verifying their identity. Thereafter, the transaction occurs but they never receive the anti-virus software they purchased. Some fraudsters even tried to make multiple transactions on one card.

The fraudsters are very articulate, but stay alert. Here are three ways to recognize signs of a fraud:

- Is it you who initiated the call?
- Is the deal too good to be true?
- Is it a high-pressure sale?

Other practical advice

- Confirm the identity of the person who is calling you by getting information elsewhere (on an official website).

- Before you give your personal information (credit card number, address, social insurance number) to anyone, make sure to validate their identity and the name of the company they work for.
- Is it a secure website: lock sign or an "s" in the Internet address (https://)?

To summarize, if you are in doubt, wait. Make the necessary verifications and inform yourself.

You can also contact:

- Office de la protection du consommateur au 1 888 672-2556
- Canadian Anti-Fraud Center (Phone Buster) at 1 888 495-8501
- Sûreté du Québec at 310-4141

PROMOTING AN ORGANIZATION

In each issue of the municipal bulletin, we will promote, whenever possible, a randomly selected organization. The first organization is the Centre Communautaire Bénévole Matawinie Ouest.

Their mission is to promote volunteer work in various sectors of activity and to respond to the needs of the community. You will see the acronym CCBM quite often, since it represents the organization. This community center takes pride in improving the living conditions of seniors and in the development of community action by offering homecare services, volunteering and training on the territory of the Matawinie RCM. Visit their website at www.ccbm.qc.ca or contact them at 450 882-1089. The following programs are available:

- Support group for caregivers
- Respite group
- Antidote Program VIT (Live intensely now)
- Montcalm Matawinie meals
- Bonne Boîte Bonne Bouffe program (in collaboration with the Producteurs agricoles du Québec – allows to buy fresh fruits and vegetables)
- PAIR program (free personalized automatic call service that calls seniors every day to ensure their good health.)
- PIED program (fall prevention and group exercise sessions)
- Transport – accompaniment

SEVERAL POLICIES UNDER DEVELOPMENT

MADA (Municipalité Amies des Aînés)

After the citizen and organization consultations held last November, a follow-up of the process is in progress.

Charlène Guertin, project manager for the entire RCM Matawinie, is presently compiling and analyzing all the questionnaires that have been completed during the consultations.

In spring, Rawdon's committee will revisit this compilation and make a report to identify the issues. Members of this committee will meet on several occasions to prioritize issues and objectives that will be part of the municipal council's action plan for this fall.

will take place in May.

FAMILY

The Municipality received a grant of \$6,000 to update its family policy that was adopted in 2005. This policy will serve as support for parents and as a guide for the council's decision making on subjects likely to have an impact on family life. The policy also ensures coherence and stability in orientations concerning families.

HEALTHY LIVING

By adopting a healthy living policy, the municipal council underlines the importance of a healthy diet and of a physically active lifestyle. The official launch of the healthy living policy

PURCHASE OF RIPARIAN PLANTS

The Municipality of Rawdon considers the naturalization of shorelines as a major challenge in the protection of watercourse quality. Therefore, we will provide our citizens with the opportunity to buy trees, shrubs and herbaceous plants that grow uniquely on shorelines, for a reduced price through group purchasing. The Municipality hopes to encourage interest among shoreline residents to protect their watercourses and will give them tools to do so.

Here is the list of plants offered by the Municipality and their prices:

Red Maple (*Acer rubrum*)

- Prefers full-sun and moderately sunny environments
- Prefers moist soils
- Location: middle and lower shore
- Effective for shoreline stabilization, solar screen, protection against erosion

The price list will be available on the Municipality's website (homepage) where it will be possible for citizens to place their order with a credit card payment. Orders can also be placed in person at Town Hall by filling out an order form and by bringing a cheque with the exact amount of the purchase. It will also be possible to order by mail, by writing your name and contact information (address and phone number) and by sending a cheque with the exact amount of the purchase. Everything must be sent to the attention of Ms. Marie-Pierre Thibeault, environmental officer, at 3647 Queen Street, Rawdon (Québec) J0K 1S0

Once the orders are placed, it will be possible for you to pick up your plants in mid-June at Dorwin Falls Park. Delivery date will be determined soon. We will be on site to distribute your plants and offer some planting tips.

BILINGUAL DAY CAMP

For a second year, ExporAction Day Camp is offering 2 bilingual groups (children will be divided according to age).

The concept of bilingual groups

Activities such as arts and crafts, sports games, kayaking will take place in English, including interactions with the counsellors. Activities with other day camp groups: special activities, field trips, day care, library, etc., will take place in French.

This concept will allow Anglophone and Francophone children to become more familiar with the French and English languages.

Important: The mandate of bilingual camp is not to offer school type teaching but rather to introduce concepts of the English and French language into daily activities.

HEALTH CHALLENGE

For a second consecutive year, Rawdon is participating in the 5/30 Health and Wellness challenge!

If you register to the 5/30 Health and Wellness challenge before March 1st, we remind you that free activities offered by the Municipality are available. Visit our website or get a brochure at Town Hall.

Those who are registered in the challenge can participate in a draw for a free activity during the fall 2015 / winter 2016 session of the municipal program (for residents only).

Upon presentation of proof of registration to the Health Challenge at the Department of Recreation and Culture (in person at Town Hall), you will have a chance to win a credit for a course during the fall 2015 / winter 2016 session.
